Current topics

12 Please tell us what we could improve, or what activities you would like in SIS with your own words (please, be honest!) And if you are not a member today – what would make you consider to become a member?

SIS should cover all parts of Sweden not just centered in the south, how about Indonesian living on the north or middle west and east they want to join also the activities in their local or nearby areas.. maybe once?

Sport activities. Food and celebration. Job contacts

Try to include the adoptives more and their families. Many have lost connection but would come if it was more event and gatherings. Include the students and have more the exchange with them and the one in SIS. The board has lots to do and arrange and they need help from many. So try to have a meeting with people from different groups to think of what we can do to have 2jqt I think we had maybe 20-30 years ago.

More activities, not the same thing repeated from previous years, new activities - give us much to choose on and a reason to be a member

When there is a Pasar Malam. Please let the seller decide the price of their foods. Not a cheap price / SIS decided! Because every year the price of groceries changed! So our food price too! Can't use the same cheap price every year! This is my honest review for SIS

Maybe, Indonesian Who live outside Stockholm Can be included and part of the activities

Keep the fire on!

Gets more Young people to join and engage in SIS.

Need to open SIS in Skåne

Why? What's in it for me?

Free membership

No complaints about SIS , for me Joining SIS is making new friends

Commitment to the "Swedish Indonesian relationship" is more important than "the board's ego.

as I am now to Stockholm, maybe I can give some opinion if we can have some small groups of fika instead of bigger groups (group according to same interest)

SIS to have more activities on its social media platform to increase the interaction or sharing between members, or even create webinar sessions regularly (once a month)

Making pasar malam in the spring time would be much better than in winter time hehe

Engage and more active in social medias

Information about study in Sweden

More merchandise

I would like to become a member if SIS has the activities in small cities such as Växjö.

Yes I will

13 Give the point from 0-10 for the board intention: Using English as community language because we need to consider gaining interest from Indonesian that are new such as students or new employees since they could not understand Swedish at all
